3. info about incompletes is here

https://www.luc.edu/media/lucedu/cas/pdfs/Student_Academic_Affairs_Policies.pdf

we would have to talk more about this option.

Do you by any chance have any availability outside of office hours during the week of 4/25-4/29? I think it may be helpful to discuss this. I think I was under the impression the paper and project were a single assignment. After rereading it, it's my understanding the project can either use the data from the paper or data from elsewhere? Is that correct? If that is the case, I'm wondering if the paper deadline can be moved closer to the project deadline. I spent a lot of time looking for a paper with data because I didn't understand what Option 2 meant, I thought that option was for doing two separate assignments instead of one.

I couldn't find any detailed information from the Graduate School about incomplete grades, I don't have any documentation or sudden circumstances, I was just busy with a lot of things, so I'm not sure if I would qualify.
